K-LiTE Niva 10

Flexible neon-style LED lighting product made from silicone co-extrusion. This premium neon flex luminaire is designed for both indoor and outdoor use, offering superior UV resistance, chemical stability, and abrasion resistance. With an IP68 rating, it is fully protected against dust and water, ensuring reliable performance in harsh environments. The flexible design allows for easy horizontal bending, delivering a uniform light output along its entire length. Additionally, it can be easily customized in length with small cutting increments, making field installation precise and adaptable to various project needs.

Product Description

- · Ultra bright LED Silicone
- · Anti-UV for outdoor use.
- Flexible horizontal bending for easy of installation.
- Available in 120° beam angle.
- Even light distribution & no dot spots.
- CRI (Ra):≥80
- · Constant voltage non integral power supply
- · Low Voltage at 24V dc assures safety.

Product Benefits

- Dot free and absolutely homogeneous light emission surface.
- · Flexibility combined with high durability.
- · High luminous flux
- · High colour consistency

Areas of Application

- · Shopping malls
- · Landscape areas
- Accent Lighting
- Commercial & Business Centers

Technical Specifications

General

ID : 3399 System Wattage LED's per m : 7W/m : 120 pcs : 55 mm : 5m/Roll Cutting Unit Length

Driver Non-Integral

: Constant Voltage Operating Voltage Operating Temperature : 24Vdc :-15°C + 50°C

Physical

Body : Silicone - Side Bend

Diffuser : Silicone Mounting : Surface

Aluminium profile, Flexible channel

Light Source

Light Source : SMD 2835 CRI (Ra) : >80

: 2700K / 3000K / 4000K / LED Colour Temperature

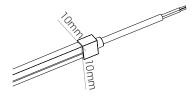

6000K

Driver

Power Supply : Non - Integral

Optical Performance

Luminous flux : 500 lm/m Beam Angle : 120°

Horizontal Bending

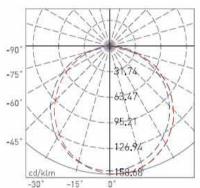

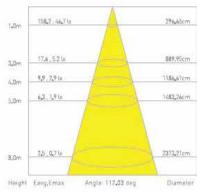

Illuminance Distribution
